October 28, 1914.

Mr. J. Pinton,
Hancock, Mich

Dear Sir;

Many thousand merchants, through the use of our jewelry catalogue last year, earned handsome profits without having to invest a penny in stock. It represented business that would have gone elsewhere; much of it to the mail order houses.

Mail order jewelry houses are getting rich from business secured in your community, and in others, through catalogues, which proves two things; first that the business is there, and second that it can be secured - by catalogue - without a salesman.

This being true, what cannot be accomplished through such a catalogue as we send you, supplemented by your wide acquaintance and your salesmanship, and backed by the guarantee of Marshall Field & Company?

We want to help you keep this business at home, so we have prepared this beautiful catalogue for your use as a counter sales book.

Merchants who have used our catalogue say their customers find it easy to choose from the life-like reproductions.

But those who sold the most goods from the catalogue last year were those who had a sample assortment similar to those listed inside this letter. These articles represent some of the most popular pieces shown in the catalogue, and merchants say that placing a few of these articles in the hands of their customers will often crystalize desire into real sales. The articles not only sell themselves, but help you to sell other pieces.

The prices in this catalogue are list, subject to the liberal discounts mentioned on your discount card. Why not offer your customers 20% from these list prices? It will interest them in the catalogue and help you to get new and profitable business.

You may order goods shipped to distant points with the same confidence as though you sent them yourself. The quality of every piece is backed by our guarantee. Our service assures you of careful attention to details.

Except when engraving is required, practically all goods will be shipped the day the order is received.

67604—16 pieces Fashionable Jewelry, complete assortment . $24.00

Including solid-gold real cameo-set La Vallieres and several exclusive French novelties, retailing at $1.25 to $8.00. This assortment will pay you 85 per cent profit. Each piece (excepting hair ornaments) put up in beautiful velvet and satin lined case as illustrated.

2906—14 pieces Gift Merchandise, complete assortment . . $26.00

These choice selections, including solid-mahogany silk-shade lamp, solid-brass desk set, as well as the latest novelty party cases, sewing sets, boudoir and desk clocks, will pay you a handsome profit.

N. B. No trade discount allowed on assortments quoted.

67605—Combination of All Four Asso

We offer all of these assortments, consisting of sixty-seven serviceab of $95. At this figure these four assortments will pay you almost

79550—12 pieces Beautiful Cut Glass, complete assortment . $25.00

These are twelve of the newest and richest designs selected from our great Cut Glass Department. All these pieces are specially appropriate for the Thanksgiving table, as well as for Christmas and anniversary gifts.

95251—25 pieces Popular Sellers, complete assortment . . $26.00

Consisting of sixteen attractive Sheffield silver table novelties, three sets well-known brands of fancy flatware and other novelty merchandise illustrated.

ments Illustrated $95.00

ıod attractive gift articles, retailing from $1.00 to $8.00, at a special price pper cent on your investment—and every article will be a quick seller.

TERMS: 10 days less 2 per cent.
30 days less 1 per cent.
60 days no discount.

The busy holiday season is drawing near when you'll find the catalogue invaluable. Keep it where people can see it and handle it. Get your customers into the habit of consulting this catalogue as they would a directory or a dictionary.

Yours very truly,

MARSHALL FIELD & COMPANY.

P. S. We suggest that you pass this letter around to your clerks.

DIAMONDS

In the selection of a Diamond, three points should have equal consideration—the color, the degree of perfection and the cutting.

Perfect cutting is fully as important as material perfection or pure color, for brilliancy—the quality most sought for in the Diamond—is the result of perfect cutting alone.

A perfectly cut Diamond has 58 facets. It must be absolutely round and have a well finished edge. The proportions and angles of the facets in a scientifically cut stone are carefully studied, to develop the greatest light refraction.

A large majority of the Diamonds offered in the market are finished in poor proportions or with rough edges or are not perfect in shape. These, and various other imperfections in the cutting, save waste of rough material and it is therefore cheaper for cutters to slight stones in this way.

The Diamond's chief value to the wearer lies in its brilliancy and it is therefore essential that the purchaser make a comparison of stones rather than of weights and prices. It frequently occurs that of two stones, the one of lesser weight, perfectly cut, appears larger and more brilliant, and is consequently more desirable.

The accompanying illustrations will convey some idea of the advantages to be gained by scientific cutting. They show the direction light rays take as they are reflected back from the stone. It is this reflection of light that produces brilliancy in the Diamond and, it will be readily observed that the perfectly cut Diamond is the only one in which the reflection of light is complete, and evenly distributed over the entire surface of the Stone.

Too Shallow

PERFECT PROPORTION
Scientific Cutting

Too Shallow Above Girdle

Out of Balance

Too Thick Above Girdle

Irregular Cutting

We classify our Diamonds according to fixed standards of quality. The painstaking care with which our selections are made assures uniform classification and correct values.

A brief description of our qualities follows:

PURE WHITE QUALITY B—These diamonds are of Pure Water White color, possessing the same brilliancy as perfect stones but with imperfections which are scarcely noticeable; they are perfectly cut and proportioned.

STANDARD WHITE—These diamonds possess a clean white color; being perfectly cut, they are very brilliant. Although a number of unmounted stones grouped together show a suggestion of color, they are usually sold as white and frequently as pure white.

PURE WHITE—A clear water white is the notable feature of this grade. When mounted or viewed from the surface, these stones often reveal a blue tinge. Their brilliancy exceeds that of Standard White stones.

BLUE WHITE—Diamonds of this grade are cut from fine blue white stones. They possess a beautiful clear blue tinge, which is greatly intensified under artificial light. The greatest brilliancy possible in the Diamond is attained in this and the following grade.

EXTRA BLUE—These are Diamonds of the finest quality and are obtainable from but few dealers. To a discriminating buyer, this grade is most attractive, every stone being a real gem, finished with the utmost care.

We wish to emphasize the advantages which our stock of Diamond set Jewelry affords. The range of designs is greater and more up to date than shown in other catalogues.

The small Diamonds in all of the Jewelry illustrated are full cut brilliants. No chips or poorly cut stones are used, excepting where the Diamonds are described as "Rose Diamonds."

We will submit Loose Diamonds or Diamond Jewelry on ten days approval if desired. This should be of material assistance to dealers not carrying Diamonds in stock who have prospective customers.

Purchasing directly from foremost cutters, strict adherence to the principles of scientific cutting and maintenance of quality standards long established, make it possible for us to offer diamond buyers unusual advantages in prices and qualities of gems.

Women's Diamond Rings

14 K Gold and Platinum, Hand Made Mountings of the latest designs

The Diamonds contained in these rings are all of our recognized superior qualities. Each stone is carefully examined and classified according to our long established quality standards which are fully described on page 1. Special attention is given to the cutting and proportion of every Diamond we sell, and the greatest possible fire and brilliancy are assured. We will submit any of these rings on ten days approval subject to return if not entirely satisfactory. Every Diamond is guaranteed to be exactly as described—full value—and satisfactory in every respect. Each ring is put up in a beautiful velvet lined case.

Men's Diamond Rings

14 K Solid Gold Hand Made Mountings, Correct Designs

The Diamonds contained in these rings are all of our recognized superior qualities. Each stone is carefully examined and classified according to our long established quality standards which are fully described on page 1. Special attention is given to the cutting and proportion of every Diamond we sell, and the greatest possible fire and brilliancy are assured. We will submit any of these rings on ten days approval subject to return if not entirely satisfactory. Every Diamond is guaranteed to be exactly as described—full value—and satisfactory in every respect. Each ring is put up in a beautiful velvet lined case.

Ariston Rated Watches

Each watch is enclosed in a genuine circassian walnut case, which serves as an attractive display feature for the merchant. It also insures safe shipment and makes a handsome package for presentation.

7432/1 Each 52.50
Thin model, open face, plain polished, extra quality gold filled case, guaranteed permanently, 17 ruby and sapphire jewels, oreide settings, compensating balance, double roller, steel escape wheel, Brequet hair spring, micrometric screw regulator, adjusted to 3 positions, temperature and isochronism.

7432/11 Each 75.00
Same, 14K heavy, solid gold case.

7436/1 Each 75.00
Thin model, open face, plain polished, extra quality gold filled case, guaranteed permanently, 21 diamond, ruby and sapphire jewels, raised gold settings, compensating balance with gold screws, double roller, steel escape wheel, Brequet hair spring, micrometric screw regulator, adjusted to 5 positions, temperature and isochronism.

7436/11 Each 112.50
Same, 14K heavy, solid gold case.

7438/11 Each 150.00
Thin model, open face, plain polished, 18K heavy, solid gold case, 23 extra quality diamond, ruby and sapphire jewels, raised gold settings, compensating balance with gold screws, pivots running on diamonds, Brequet hair spring, micrometric screw regulator, double roller steel escape wheel, adjusted to 5 positions, temperature and isochronism.

The Ariston Rated Watch

The purchase of a watch should be considered as an investment.

When a man buys an Ariston Rated watch he buys a life long companion—he makes an investment that will net him good service as long as he lives.

The Ariston Rated watch is one of the few watches that may be relied upon by scientists, technical men, railroad officials and business men alike.

The essentials of faultless construction, perfect finish and style correctness are embodied in these watches.

They are built to meet the requirements of railroads and other exacting service.

They are adjusted to various positions and temperatures, in their cases, before leaving the factory—are timed and tested for a long period before being shipped.

The rating of these watches is a positive assurance to the purchaser that he is getting what he desires—a perfect time piece—for the rating is a record of the daily running of the watch in the various positions and temperatures it would naturally be subject to in practical use.

A factory rating card accompanies each Ariston Rated watch and shows exactly the time the watch has kept during its various tests.

If the daily running and timing shows undue variation in the different positions, and temperatures the movement is readjusted—even rebuilt to overcome the slightest defect in its time keeping qualities.

The rating card is then an insurance that the watch will keep perfect time, for it is an actual record of what it has done and will do.

We consider the Ariston Rated watch one of the best and most reliable watches on the market, and guarantee it to keep perfect time and give absolute satisfaction.

Illustrations showing side view of the Ariston Thin Model Watch, **7432-7436-7438.**

This watch is thin enough to be stylish and thick enough to be serviceable.

7443/1 Each 52.50

Safety Pen Can be Carried Flat in Vest Pocket or Ladies' Purse Without Leaking

P2400—Hard Rubber Holder, No. 2, 14k gold pen, long or stub nib, gold top feed. Each 3.20

These pens are not to be compared with the many cheap grade of pens on the market.

Crown pens have stood the test of time, there being a large number of pens in daily use which were purchased as long as fifteen years ago.

These pens are made for hard practical use, and are made of the best selected materials. The ink is supplied by two feeders, one above and the other below the gold pen, making the flow of ink regular. The top feed can be had in rubber or 14k gold; the under-feed is made of hard rubber. Gold pens are 14k, good weight, well made, and have hard iridium points. Holders are made of best Para rubber. In ordering state whether fine, medium or coarse point is wanted. Packed one in box.

Self-filling Fountain Pens

Illustrations are actual size of goods.

P302—Plain or chased, with No. 2 14k gold pen.....Each 3.20

P350-3—Black rubber, with No. 3 14k gold pen.....Each 10.00

1-10 18k Gold Filled Filigree Mounting

Our Self-Filling Fountain Pen will give satisfaction to the user. Those who have tried this pen pronounce it the best article of the kind made. There is nothing to get out of order—simple in construction, easy to fill and easy to clean. A slight turn on the knob "C" releases the bar "B." Place pen in the ink (just above the rubber), press on bar "B," releasing slowly, and the pen is filled. Turn knob "C" back and this locks the bar so it cannot be pressed.

Display Case Free

With an order of two dozen self-filling pens, assorted numbers, we will furnish gratis a handsome French plate glass case with plush trays to hold two dozen pens.

Rameau Opera Glasses

These glasses are made expressly for Marshall Field & Co., by one of the best French manufacturers, and are the equal of any opera glasses on the market. Each pair is put up in leather case, and attractively boxed. A draw string plush bag is furnished with the handled glasses.

Thermos Products

72 HOURS COLD
The Thermos Bottle keeps ice cold liquids ice cold 72 hours in the hottest weather

Thermos is a new scientific invention, embodying the well-known principle that heat or cold can't get through a vacuum. The Thermos bottle simply consists of one glass bottle inside another with a vacuum between. No chemicals of any kind—always ready—lasts a lifetime. Filled, cleaned, emptied, same as an ordinary bottle.

Thermos is a GLASS PRODUCT, but will last a lifetime if handled with care—as a glass product.

Here is shown the standard separable type Thermos bottle in which a glass part (filler) may be inserted in event of breakage without necessity of returning bottle and incurring transportation charges.

24 HOURS HOT
The Thermos Bottle keeps liquids hot 24 hours in the coldest weather

SEPARABLE ALL NICKEL THERMOS BOTTLE

Cementless Paperless Padless

This new model has the new separable type, full nickel, heavily corrugated, seamless case, permitting the insertion of refill by the user in less than a minute. It is therefore no longer necessary to return bottles to factory for repairs or refills. Case screws apart at shoulder.

This model is the best value ever offered.

Y18548

THERMOS CARAFE HOLDER

(Without Carafe)

The Carafe Holder is made of heavy brass, triple nickeled, and is equipped with a tozzle swivel, so that the Carafe can be tipped either forward or sideways.

This holder is used extensively in hotels and restaurants, also on railway dining cars, steamships, yachts and motor boats. It can be fastened on either wall or table, preventing the removal of the Carafe, as it can be locked in; also reduces danger of being broken.

Nickel padlock and screws are supplied with each holder.

This carrier can be equipped with any of our quart size Carafes.

Y18538—For holder only .....**Each 4.50**

THERMOS CARAFE AND TUMBLER HOLDER

(Without Carafe)

This carrier is being used extensively for home service, as it is the safe means for transportation of the Carafe.

It is also ideal for serving cool drinks on the veranda, in the summer gardens, etc.

Y18537—Carrier with glasses, fitting any of our quart size Carafes.....**Each 4.50**

THERMOS TILTING CARAFE

This Holder is so constructed that when lifted by the neck the bottle does not become detached from the stand. To remove the bottle from the frame, tilt to a horizontal position and draw forward.

Y18539—Nickel finish Carafe and Holder, complete with etched crystal tumbler.....**Each 14.25**

Y18592—Extra filler for Y18539, complete with ground-glass silvered stopper and chain.....**Each 5.25**

Popular Priced Thermos Carrying Cases

Prices do not include Bottles or Lunch Boxes, but are for Cases only

To meet the popular demand for a satisfactory carrying case at a low price, we offer a line of dark green cases (red lining) manufactured of "Thermaline," a new and substantial material, and Black Long Grain, a new and most attractive leather.

Fitted Thermos Lunch Kits

Prices include Bottles and Lunch Boxes

Thermos Handy Lunch Kit

The Handy Lunch Kit is without a doubt the most popular kit that has ever been placed on the market. It meets the requirements of every person wanting a good substantial and neat appearing lunch carrier at a moderate price.

This case is made of strong black fibroid with reinforced corners, contains a block tin lunch box which can be removed for cleaning and also a No. Y18421 Thermos bottle, pint size, which is fastened in the cover of kit with buckle and strap.

The bottle is of the separable type, detached at the shoulder, removable filler.

Y18320—Kit complete with Y18421 green enamel Thermos bottle.....Each 2.37½

Y18321—As above with all nickel Y18422 corrugated bottle.....Each 3.75

Height, 7½ inches; width at the base, 5¾ inches length, 10 inches; weight, 2¼ pounds.

Thermos Lunch Kit

Pint size

Quart Size

Y18312—Equipped complete with Y18514 bottle and enameled metal lunch box.....Each 7.50
Y18317—Same as above, but containing maroon enameled lunch box and Y18523 bottle.....Each 9.75

Thermos School Lunch Set

The School Lunch Set is made of dark green Thermaline, red Peltine lined, patent clasp fastener and leather strap handle. The case is equipped with Y18383 separable nickel Thermos bottle, half-pint size, and also a nickel metal lunch box with hinge cover.

An ideal set for a child's lunch to be carried to school, etc. The bottle can be used for coffee, cocoa or milk; the lunch box holding a fair quantity, enough for the average child.

Dimensions: 8½ inches long, 6 inches wide, 3 inches deep; weight, 2 pounds.

Y18319—Complete with bottle and lunch box.Each 5.25

Y18322—Same as Y18319, except fitted with dark green enamel bottle and green enamel lunch box.....Each 4.50

The Thermos Lunch Kit

Drop Front Case

For the man or woman who carries his or her meals away from home, a Thermos lunch kit is absolutely indispensable. Unequalled as well, for the picnic or a day's journey. The man working in a factory, office or in the fields needs no longer drink cold liquids in winter or lukewarm beverages in summer—nor eat dried, unpalatable sandwiches. In the enameled metal sandwich case of the Thermos lunch kit the food is kept moist and fresh, and liquids in the Thermos bottle retain the temperature desired—ice cold or piping hot—ready instantly whenever and wherever wanted

Hand Made Gold Lustre Glass

Each article is individually made, and no two pieces will be exactly alike. The indescribable soft iridescent lustre of this glass, produced by the infusion of pure gold, embraces all shades from deep blues to rich golden browns. Gold lustre glassware is especially appropriate for Wedding gifts. Each piece is individually boxed.

E78910—Each 3.00
Vase
Height 6¼ inches

Chafing Dishes with "Alcolite" Burner Gas Stoves

With the Alcolite Burner the value of a Chafing Dish is more than doubled, for, in addition to the chafing dish, you have a perfect alcohol gas stove which will cook anything. These stoves burn denatured alcohol gas mixed with air, which produces an intensely hot blue flame, powerful for any cooking; can be regulated same as any gas range burner. Will burn full flame for one and one-half hours. The alcohol will not evaporate when lamp is not in use.

H445—Chafing Dish and Stove; Alcolite wick-feed burner, nickel plated; 3 pints; ivory enameled food pan.....Each 13.90

"Universal" Electric Household Appliances

Furnished with Safety Device as Described on Previous Pages. Complete with Flexible Six-Foot Electric Cord and Indestructible Plug. Supplied for Following Voltages: 100, 110, 120, 220 and 240
Always Specify Voltage when Ordering

Electric Chafing Dish

Fast and slow heat connections. 450 and 160 watts. Capacity, 3 pints.
H921C—Copper ..... **Each 15.20**
H921N—Nickel plated ..... **Each 15.20**

Electric Chafing Dish

Made of copper, ebonwood handles, two heat, fast and slow, 450 and 160 watts. Capacity, 3 pints.
H920C—Copper ..... **Each 22.80**
H920N—Nickel plated ..... **Each 22.80**

Combination Chafing Dish and Electric Stove

Ebonwood Handles and Knobs.

Two heat, Fast and Slow. 550 and 300 watts. Stove has side handles; 6 in. polished iron disc.

The bottom of water pan for this dish is made with off-set about $\frac{1}{16}$ of an inch deep, fitting down over edge of disc which makes bottom fit snugly, taking advantage of all the heat radiation. This feature makes this combination very efficient. Stove can be used separately for heating water, making candy, etc. Capacity of dish 3 pints.
H9970N—Nickel plated ..... **Each 19.06**

Electric Grill

Complete with six-foot flexible silk finish cord and Indestructible Plug.
Broils, Fries, Toasts and Stews.
Size of Grill $4\frac{3}{4}$x8 inches.
Heating surface, $7\frac{5}{8}$x$4\frac{1}{2}$ inches.
Depth:
Frying Pan, $1\frac{1}{4}$ in., Boiling Pan, 2 in., Griddle, $\frac{1}{4}$ in.

This appliance is probably adaptable to a wider range of uses than any other single electric device obtainable. It will make perfect toast, cook eggs as you like them, grill bacon, chops or a small steak. It will cook small portions of cereal, creamed chicken, beef or potatoes. For toasting crackers, preparing boiled frostings for cakes, making gravies, etc., nothing works better. In short, prepares a whole meal at the table. The heating element in the "Universal" Grill is carried closer to the ends of the frame than in any similar device, thus insuring a more even spread of heat. Note the extra depth of pans. The base and frame are heavily nickel plated and highly polished.

Burned linen and scorched tables cannot result through the failure to set a tray under the Grill before applying the current.
H981—Nickel plated, 600 watts ..... **Each 7.60**

Electric Disc Stove

Convenient for cooking light meals at the table; for heating water, milk or broths quickly in the nursery, bedroom or sickroom; for candy-making or after-theatre suppers.

The most important features in the "Universal" Stove-Electric are quick, intense heat and economy of current. Polished 6-inch iron disc; nickel plated, ebonwood handle and base knobs.
H996N—Single heat, 520 watts ..... **Each 9.12**

Electric Disc Stove

Polished 6-inch iron disc. Nickel plated frame. Ebonized handle and base knobs Fast and slow heat connections.
H997N—Two heats, 540 and 295 watts ..... **Each 11.40**

Electric Heating Pad

Equipped with 10 feet mercerized silk finish flexible cord, 3 feed circuit heat regulator and with a safety device which automatically breaks the circuit at a given temperature, preventing the pad from becoming overheated; size of pad, 16x$10\frac{1}{2}$ inches.
E994—22-24-66 watts ..... **Each 9.88**

"Universal" Electric Thermo-Cell Sad Irons

H901N

H902N

Complete with 8 feet mercerized silk finish flexible cord and triple contact terminal plug; weight six pounds.
H901N—With Stand, nickel plated; 580 watts ..... **Each 6.08**
H902N—Nickel plated, 580 watts .... **Each 5.34**

Electric Curling Iron and Comb

Heavily nickel plated iron. Comb made of aluminum, ebonized handle $13\frac{1}{2}$ in. long, comb $5\frac{1}{2}$ in. long.
H999C—Curling iron ..... **Each 5.34**
H999½C—Curling iron with comb ... **Each 6.08**

Electric Toaster

Has perforated top plate upon which the finished toast can be kept warm while other slices are browning.
H941N—Nickel plated ..... **Each 6.08**

"Universal" Table Kettles

Ebonized handles and knobs. Legs, stand and handle brackets made of brass. Body of kettles made of solid copper. Each kettle is equipped with a patented "Universal" alcohol lamp which burns with a hot flame and is easily regulated.

Capacity, 2½ pints

H533C—Copper.....**Each 14.10**

Chafing Dish Grate

May be suspended in the stand of any "Universal" Chafing Dish after the food and hot water pans are removed.

In connection with the "Universal" Chafing Dish Lamp this Grate provides a most convenient apparatus for boiling, stewing, frying or broiling.

H001—Dull nickel .....**Each .80**

"Universal" Alcohol Stoves

Denatured alcohol at 50c a gallon is cheaper than coal at $7.00 per ton

A highly finished article designed for light service in sick room, nursery or boudoir. Equipped with patent lamp which burns with a hot flame and is easily regulated. Grill and uprights polished brass. Lamp and base polished copper. 4½ in. high, 6½-in. base, 6-inch top.

H03.....**Each 3.45**

Hot Blow-Flame Alcohol Stove

Made of brass. Unexcelled for making coffee, tea, toast, etc.—or when covered with asbestos mat, for keeping plates hot.

Height, 5½ inches; diameter, 6⅜ inches.

H0C—Copper finish.....**Each 4.00**
H0N—Nickel plated.....**Each 4.00**

New "Universal" Wick-Feed Alcohol Stoves

These stoves are so constructed that it is never necessary to replace wicks as they will never charr. The gas is automatically controlled by the strength of the flame. Operates with an even blue flame, which is easily regulated by turning valve stem one way or the other.

Capacity ¾ pints. 5¾ in. high, burner 2⅞ in., rack 7½ in. diameter. Rack is dull nickel, base and lamp of brass, also the 3 supports are of heavy brass and all these parts are nickel plated and highly polished. Ebonized feet and knob.

H24.....**Each 8.30**

Capacity 2½ pints. 7⅛ in. high, burner 2⅞ in., rack 8½ in. diameter. Dull nickel-plated rack. Japanned steel frame. Highly polished nickel plated reservoir.

H14.....**Each 6.25**

"Universal" Alcohol Gas Stoves (Gravity Feed)

Converts denatured alcohol into a gas, mixes this gas with the oxygen in the air. The result is you get perfect combustion, intensely hot blue flame.

Denatured alcohol at 50 cents a gallon will operate one of these stoves 14 to 16 hours at an approximate cost of 25 cents.

H610—"Universal" Stoves only. Burner made of brass and body of steel. Dull finish nickel plated throughout. Diameter 8⅝ in. Total height, 9⅞ in. Capacity of fount 1 pint. .....**Each 6.00**

H611—Same as above, highly polished**Each 6.80**

Chafing Dishes with Alcohol Gas Stoves (Gravity Feed)

Burners of these stoves are as efficient and easily operated as a gas range.

H2161N—"Universal" Stove and Dish, nickel plated and highly polished. Complete **Each 12.00**

"Universal" Electric Household Appliances

The Heating Elements, wound with highest grade Nichrome wire, have original double contact connections securely anchored to prevent pulling out, and when used in accordance with directions are warranted for five years. The flexible connecting cable, 6 feet long, is thoroughly insulated and handsomely covered. Swivel plug for lamp socket easy to attach. Indestructible plug, containing patented triangular terminal with triple contact points. Spring grip at both ends insures positive connection. Furnished with each device.

All of the articles listed can be supplied for the following voltages, 100, 110, 120, 220 and 240. Always specify voltage when ordering.

Safety Device

These appliances are equipped with "Universal" Safety Device which automatically melts, breaking the circuit when through the lack of water the appliance becomes overheated. Any danger of fire, destroyed appliances or burnt out heating elements is thus eliminated.

Made of heavy copper, aluminum interior fittings, inside coated with pure tin, silver finished. Ebonwood handles.

Electric Coffee Percolator

The "Universal" pumping process is due to an exclusive and patented feature which pumps the water over the coffee long before the boiling point is reached, and circulates the water 6 to 10 times more rapidly than any other method. Made of copper. Ebonwood handle.

Capacity 1½ pints or 4 cups.

El Glostovo

7-inch glowing coil stove. Does regular kitchen cooking from any lamp socket. Uses any dishes; heats up in a few seconds; light and portable. Handsome design and finish. Instantly taken apart for cleaning. 7¼ in. diameter; 4 inches high. Made of steel, full nickel finish. Has 8-foot flexible cord, lamp socket attachment plug, and interchangeable switch plug. Heating element guaranteed 5 years.

H20—El Glostovo 600 watts.....**Each 7.50**

Aluminum El-Comfo

This Electric Hot Pad supplants the hot-water bottle for bed warming and for all dry or wet applications of heat to the body. Concave on one side and convex on the other, always fits the body curves. Any temperature between 100 and 200 degrees Fahrenheit is obtained by adjusting the small lever in the neck of El Comfo. The word **Low** in raised letters on one side of the aluminum case enables this adjustment to be made in the dark or under the bed covers.

Any temperature is unvaryingly maintained by the automatic control inside, which, by the way, keeps the current turned off about half the time, so that the already small cost of operation is cut in two and is (at 10c per K. W. H.) only about ⅕ cent per hour.

Has cord, attachment plug and a separable plug in the cord, three feet from the appliance. Heating element guaranteed for 5 years.

H9-3—Aluminum El-Comfo 40 watts.....**Each 6.75**

El-Boilo

This immersion heater quickly heats or boils any liquid it is plunged into. Crookneck shape is particularly designed for use in shallow vessels. Heating element guaranteed two years. Nickel plated.

H11 —Toilet size, 350 watts.....**Each 4.50**
H11½—Kitchen size, 600 watts.....**Each 6.00**
H12 —Crookneck, 600 watts.....**Each 7.50**

El Warmo

Foot warmer for old people, invalids and convalescents. Fine for drying the children's shoes and clothing; also effective as a heater, when placed under table or desk. In electric automobiles it is operated from the storage battery. Steel, nickeled. Has cord, attachment plug and interchangeable switch-plug. Heating element guaranteed for 2 years. Size 12x10 inches. 250 watts.

H07.....**Each 9.00**

Hot Point Electric Irons

Hot Point, cool handle, attached stand. Polished nickel. Has cord, attachment plug and interchangeable switch plug.

H23—3 lb., 330 watts.....**Each 4.50**
H25—5 lb., 500 watts.....**Each 5.25**
H26—6 lb., 575 watts.....**Each 5.25**

Utility Outfit

Combination iron, curling heater and stove. An ideal outfit for the traveler or roomer. The 2½-pound hot point iron (with hole in rear for heating curling tongs) is complete with cord, attachement plug and interchangeable switch plug. The inverting stand is of steel, nickeled. The 3-cup dish, with cover, is of copper, nickeled. Entire outfit telescopes and fits compactly in the leather bag. Heating element guaranteed for 10 years.

H5—330 watts .....**Each 7.50**

El-Bako

El-Bako operates from the regular lamp socket. Light enough to be portable, yet large enough to hold two pies or two loaves of bread or a chicken and baked potatoes. Made in "three-heat" model only with snap switch control. Made of planished steel with nickeled legs and trimmings, glass in door, complete with cord and attachment plug. Weight, 20 lbs.; outside, 14½x14x13 inches; inside, 11x10½x7½ inches. Heating element guaranteed 5 years.

H21—watts 600–300–150.....**Each 18.00**

Nickel Plated Casseroles and Baking Dishes

Pottery Linings, Brown Outside, White Lined

Oval Casserole with Pottery Lining
Nickel Plated

H376—Diameter 8 inches; 2½ pints..**Each 3.75**

H374—Diameter 8 inches; 4 pints....**Each 3.75**
H375—Diameter 9 inches; 5 pints....**Each 5.70**

Casseroles with Imported China Linings, Chocolate Color Outside, White Lined
These linings are Vitrified China and are superior to the pottery linings generally used

H361—Oval Casserole with vitrified china lining. Nickel plated frame. Has footed base with solid bottom. Diameter 9½ inches; 4½ pints.....**Each 9.15**

Vegetable or Deep Covered Pie Dish with vitrified china lining. Nickel plated frame.
H364—Round, 8-inch, 2 pints.....**Each 7.95**
H365—Oval, 9-inch, 2 pints.....**Each 8.40**

H360—Round Casserole with vitrified china lining. Nickel plated frame. Has footed base with solid bottom; diameter 8½ inches; 4 pints.....**Each 8.40**

Casseroles, Vegetable and Pie Dishes with extra heavy Pure Aluminum Linings

This material is particularly recommended on account of its durability and cleanliness. Much superior to the pottery lined casseroles as there is no breakage of linings. The sectional view shows interior construction. The aluminum cover is used only while cooking, and in serving is removed and the dish is placed in metal frame. The nickel plated cover has non-heating wood knob.

H590—Round Pudding or Deep Pie Dish with aluminum lining; diameter 8 inches; capacity 2¼ pints.....**Each 6.30**

Round Casseroles with Aluminum Lining
H591—Diameter 6¾ inches; capacity 2¾ pints
.....**Each 5.90**

Jewelry Boxes

Attractive boxes enhance the appearance of Jewelry, adding a touch of individuality and distinction. This is especially true when the Jewelry is used as gifts. The artistic boxes used for Mérite Jewelry will also add greatly to the display of the goods in your store. Realizing this, we are furnishing without charge, the handsome boxes and cases illustrated, enabling you to deliver Jewelry to your customers in as attractive style as the finest retail Jewelry shops would deliver it.

Fig. 1

Fig. 2

With all gold filled Jewelry listed at **12.00** dozen and over, and with solid gold Jewelry listing below **5.00** each, boxes similar to illustrations, Figs. 1 and 2 are furnished. These boxes are covered with tan colored, linen finish paper. The articles are mounted on attractive Mérite cards, and are enclosed in transparent paper envelopes.

Fig. 3

Fig. 4

All solid gold articles of Jewelry, listed from **5.00** each to **33.00** each, are put up in handsome boxes, shown in the accompanying illustrations, Figs. 3 and 4. These boxes are substantially made with dome tops, covered with tan, linen finish paper, lined with good quality velvet and satin; they are enclosed in neat cardboard cartons to protect them in handling.

Fig. 5

Fig. 6

With diamond and precious stone Jewelry, listing from **33.00** each to **200.00** each, we furnish fine quality velvet covered wood frame cases, with velvet pads and satin linings, and pearl clasps as illustrated, Figs. 5 and 6.

Fig. 7

Fig. 8

Beautiful long-grained goat leather cases, such as shown in illustrations, Figs. 7 and 8, lined with the finest quality white silk velvet and satin, are furnished with diamond and other precious stone Jewelry listed at **200.00** and above. With the more elaborate pieces, such as necklaces, cases are made especially to fit the articles.

All bracelet watches are delivered in dome top, velvet-covered boxes, with velvet and fine quality satin linings, as shown by illustration, Fig. 9.

Fig. 9

Velvet lined gold coin case, made to fit any gold piece from **2.50** to **20.00** denomination; gold decoration on cover, with inscription "Merry Xmas." Order by number

Handy Reference Page

Gems and Semi-Precious Stones

Abalone Pearl—See pearl.

Agate—Semi-translucent stone, variegated, colors in clouds, spots or bands—bands in parallel, straight or circular form.

Agate, Moss—Agate in which the ores of iron tend to branch giving a moss appearance.

Alexandrite—A deep green transparent stone—purple by artificial light. Rare and valuable.

Almandine—Violet or Columbine red garnet.

Amazon Stone—Light green opaque stone, sometimes mistaken for Chinese jade.

Amber—Fossil gum of trees varying in color from clear golden yellow to white clouded opaque. May be artificially colored any hue.

Amethyst—Rich purple transparent variety of quartz.

Aquamarine—A pale sea green transparent stone. Composition same as emerald.

Aventurine—Green or reddish brown semi-translucent stone with a flaky appearance.

Bloodstone—Dark green jasper, spotted with red jasper.

Calcutta Quartz—Name given to brilliant red opaque glass used for beads, hat pin heads, etc.

Carbuncle—Deep red garnet cut dome shape without facets.

Cat's Eye—Semi-translucent olive green stone, displaying a light sheen across its polished surface (resembling a cat's eye) which appears to move as the stone is turned in different positions.

Chalcedony—Agate of one concrete color.

Chrysoprase—Apple green, translucent stone, species of Chalcedony.

Coral—Organic substance, axial skeleton of sea living animal; colors white, rose to dark red. Delicate shell pink most expensive.

Diamond—Write for our diamond booklet.

Cut Diamond—Usually denotes a diamond cut in the brilliant form round, with facets on top and back, the best method of cutting the diamond, as it reveals its fire and brilliancy.

Our Qualities—

Standard White, having slight yellowish tinge when unmounted. These stones when viewed from the surface are white and very brilliant.

Pure White, clear white, very brilliant.

Blue White, pure water white with steel blue tinge.

Extra Blue, finest color obtainable, perfect in every respect.

Diamond, Rose—Diamond with flat back-facets on top. Diamond chips are often referred to as rose diamonds.

Emerald—Deep green transparent gem, usually flawed, but when flawless equals finest quality diamonds in value.

Garnet—Dark red transparent stone, shade darker than ruby.

Garnet, Bohemian—Deep red garnet, found and cut in Bohemia.

Gold Stone—Reddish brown opaque glass with flaky golden spots, imitation of Aventurine.

Hematite—Oxide of iron, with black metallic lustre, takes very high adamantine polish.

Jade—Dark green opaque stone, scientifically known as Nephrite.

Jade, Chinese—Semi-transparent white to grass green color, tough, flinty texture, very hard.

Jasper—Opaque Chalcedony, colors red, brown or green, often found banded and spotted.

Jet—Black, opaque, extremely light species of coal. Capable of taking on high polish. Finest jet obtained in Whitby, England.

Jet, French—Lustrous black glass, cut to imitate real jet.

Jet, Italian—Highly polished black Galalith, used extensively for bead necklaces.

Lapis Lazuli—Rich blue opaque stone, some varieties marked with small spots or veins.

Lapis, Swiss—Stone artificially colored to imitate real Lapis Lazuli.

Malachite—Bright green opaque stone, with black markings or grainings.

Moonstone—Pearly white translucent stone, transparent in some positions —good quality has silvery blue sheen.

Olivine—Very brilliant green, transparent stone, Composition same as garnet.

Onyx—Chalcedony in one color of white, gray and black.

Opal—Greenish, bluish or milky white opaque stone with flaky spots of red, orange and purple.

Opal, Black—Opals whose predominant color is smoky blue.

Opal, Fire—Opals whose predominant colors are bright red and yellow.

Opal, Matrix—Opal with streaks of iron stain or veins of crude stone.

Opal, Onyx—Genuine opal overlay over black onyx. Resembles black opal in appearance.

Pearl, Gem—Organic substance secreted in shells of oysters, value depending principally upon lustre or sheen, usually cream white or pink, but all colors and shades occur.

Pearl, Abalone—Iridescent, vari-colored and blistered Mother-O-Pearl to Abalone Oyster.

Pearl, Baroque—Natural pearls of irregular shapes.

Pearl, French—Imitation gem pearls.

Pearl, Fresh Water—Pearls from shells of fresh water clams, usually inferior to oriental pearls. Also applied to pearl cut from fresh water clam shells, as in case of buttons, etc.

Pearl, Half—Small pearls with flat backs.

Pearl, Indestructible—Solid glass or stone beads coated with material giving a pearly lustre.

Pearl, Japanese or Cultured—Natural pearl produced by placing small pearl or hard substance in oyster over which natural pearl deposit is formed.

Pearl, Mother Of—Opalescent pearly lining of oyster shells—also termed ocean pearl.

Pearl, Oriental—Gem pearls from salt water oysters. Usually of finest quality.

Pearl, Seed—Small real pearls.

Pearl, Wax—Glass beads filled with wax to imitate pearls.

Peridot—An olive or bottle green transparent stone.

Rock Crystal—A colorless variety of transparent quartz.

Rock Crystal Glass—A term applied to fine crystal glass cut with floral or scroll designs similar to cuttings on genuine rock crystal urns, vases, etc.

Rose Diamond—See diamond.

Rose Quartz—Light rose colored quartz, hazy in texture—not transparent.

Ruby—Brilliant red transparent gem—next to the diamond in hardness.

Sapphire—Rich blue transparent gem—composition same as ruby.

Sapphire, Colored—Transparent stones in colors of white, purple, green, yellow, etc. Composition same as ruby. Sometimes termed Oriental Amethyst, Topaz, Emerald, etc.

Sapphire, Montana—Genuine sapphires found in State of Montana, inferior to Oriental stones.

Sardonyx—Onyx of brownish red color.

Spinel—Vari-colored mineral resembling sapphires, rose tinted "Balas Ruby" most common.

Star Ruby and Star Sapphire—Stones having peculiar natural formation displaying six narrow lines of light, radiating from center, suggestive of stars.

Tiger's Eye—Golden brown semi-translucent stone, having same chatoyant qualities of Cat's Eye.

Topaz—Golden yellow or brown transparent stone.

Tourmaline—Transparent stone found in various colors—rose and green most common.

Turquoise—Soft, opaque delicate sky blue stone.

Turquoise, Guaranteed—One that has been treated to prevent change of color which frequently occurs in Turquoise.

Turquoise Matrix—Turquoise, showing brown limestone markings often having an imperfect appearance.

Manufactured Gems

Doublet—Name given to imitation rubies, sapphires, and emeralds, made of colored glass, with a thin layer of sapphire, ruby or emerald cemented to the top to give a hard surface.

Reconstructed—Term applied to stones formed by fusion of chips from cutting of gems.

Synthetic—Gems produced by fusion of component parts of respective minerals by aid of blow pipe.

Finishes

Antique Brass—Dull finish, oxidized to imitate old brass.

Antique Gold—Dull finish with dark brownish cast to imitate old gold.

Burnished—Highly polished.

Butler—Dull or brushed silver finish.

Bright Cut—Cut or engraved showing natural color of metal through outer finish.

Brushed Brass—Dull finished brass.

Colonial Brass—Similar to brushed brass with slight oxidizing.

Engine Turning—Machine engraved lines such as seen on backs of watches, cuff links, pins, etc.

English—Bright yellow gold.

French Gray—Silver with soft gray finish.

French Bronze—Fine imitation real bronze.

Gray—Silver gray.

Green Gold—Gold finished with greenish cast, various tones.

Iridescent—Crystal, reflecting rainbow colors.

Matt—Dull finish.

Mosaic—Small pieces of various colors inlaid, forming designs.

Old English Brass—Brass with dull golden finish.

Old Gold—Dull golden finish with brownish cast.

Old Silver—Dull silver finish with gray or black oxidizing.

Copyright 1914, Marshall Field & Company, Chicago.

Handy Reference Page

Metals and Finishes

Finishes—continued

Oxidized—Metal darkened to bring out detail, or designs.

Polished—Highly burnished or polished showing natural color of metal or plating.

Pompeiian—Greenish finish similar to color of brass or copper discolored by verdigris.

Roman—Dull yellow gold.

Rose Gold—Dull yellow gold with light brown finish used to bring out details of designs.

Rose and Green—Combination of rose and green gold used to effectively bring out a design.

Satin—Soft or sanded finish applied to silver and gold.

Silver Ivory—An ivory finish produced with silver, harmonizing with Parisian ivory.

Verde—Same as Pompeiian.

Cutting

Brilliant—Round, with facets on top and back.

Cabochon—Polished convex without facets. Opals, moonstones, turquoise, etc., are usually cut in this manner.

Cameo—Engraving standing out boldly in relief upon stone, shell, coral or mineral. Two color effect for subject and back ground is obtained on striped agate or couch shell by using the band of lighter color for the subject, cutting through to the darker color for the back ground.

Intaglio—Engraving cut into a substance, forming a hollow.

Scarab—Stone cut in form of beetle, or imitation stone molded in same form, worn as amulet by Egyptians.

Materials

Calabash—A very hard, specially cultivated species of gourd used extensively for pipe bowls, utensils, etc.

French Grained Ivory—Celluloid imitation of elephant ivory showing natural graining; also termed "Parisian Ivory".

Galalith—Composition similar to celluloid in appearance, capable of taking on high polish, susceptable to any dye. Fine imitation for coral, lapis and jet, used extensively for beads.

Meerschaum—A soft, extremely light pure white mineral, used chiefly for pipe bowls.

Metals

Brass—Yellow alloy of copper and zinc.

Bronze—Brownish alloy of copper and tin.

German Silver—Hard metal, nickel silver, new silver, white copper, etc., are names applied to alloy of copper, zinc, nickel, iron and tin, commonly termed German Silver. It is extremely hard, withstands oxidation—and is the finest metal for silver plated wares.

Gold—Very malleable and ductile mineral always alloyed with silver and copper in varying proportions of 22 to 2, 18 to 6, 14 to 10, and termed 22, 18 or 14 karat fine.

Gun Metal—Steel, oxidized black, and specially treated to remove all rust.

Hard Metal—German silver or nickel silver.

Platinine—Imitation platinum.

Platinum—Finest of Jewelers' metals, always alloyed with irridium, has a silvery appearance.

Silver—Soft mineral always alloyed with copper.

Sterling Silver—Sterling silver is 925 parts pure silver; 75 parts alloy.

Solid Gold—When quality of gold is not mentioned, it is usually below 10 kt., or because the construction of the article requires soft solder or stiffening with other metal, the quality of gold cannot be indicated.

10K Gold—10 parts pure gold, 14 parts alloy.

14K Gold—14 parts pure gold, 10 parts alloy.

18K Gold—18 parts pure gold, 6 parts alloy.

Plating

Electro Plate—Gold deposited upon base metal—usually brass, by electric current in solution, various qualities depending upon length of time article is submitted to electrolysis.

Gold Plate—Same as electro-plate.

Gold Filled—Term given to very heavy electro-plate and rolled plate.

Rolled Plate—Plating by attaching bar of gold to bar of base metal, heating and rolling to desired thickness.

1-10 Gold Filled—1-10 of weight of metal is gold.

1-4 Gold Filled—¼ of weight of metal is gold.

Silver Plate—Deposit of fine silver on base metal by electric current in solution. The terms triple, quadruple, etc., are used by manufacturers to indicate extra qualities of plating.

Sheffield Plate—Modern imitations of old Sheffield are usually electro-plated with silver on copper or hard metal. Old Sheffield Plate was made by applying sheets of silver to a base of copper, but the method is now obsolete.

Birthstones and Their Significance

January—Garnet—Constancy and Fidelity.
February—Amethyst—Sincerity and peace of mind.
March—Bloodstone—Courage, firmness, truth.
April—Diamond—Innocence.
May—Emerald—Lovable and happiness.
June—Agate—Health, wealth and long life.
July—Ruby—Contentment.
August—Sardonyx—Conjugal Felicity.
September—Sapphire—Wisdom.
October—Opal—Luck and Hope.
November—Topaz—Steadfastness, fidelity.
December—Turquoise—Success and Prosperity.

Birth Flowers and Their Significance

January—Snow Drop—Refinement.
February—Primrose—Merit.
March—Violet—Modesty.
April—Daisy—Innocence.
May—Hawthorn—Hope, Cheerful.
June—Honeysuckle—Devotion, Generosity.
July—Sweet Pea—Purity, Sweetness.
August—Poppy—Consolation, Contentment.
September—Morning Glory—Wisdom.
October—Golden Rod—Courage, Fortitude.
November—Chrysanthemum—Truthful, Lovable.
December—Holly—Ambition.

Wedding Anniversaries

First Year—Cotton.
Second Year—Paper.
Third Year—Leather.
Fifth Year—Wooden.
Seventh Year—Woolen.
Tenth Year—Tin.
Twelfth Year—Silk or Fine Linen
Fifteenth Year—Crystal.
Twentieth Year—China.
Twenty-fifth Year—Silver.
Thirtieth Year—Pearl.
Fortieth Year—Ruby.
Fiftieth Year—Gold.
Seventy-Fifth Year—Diamond.

Stones for the Days of the Week

Sunday—Gold or Yellow Topaz.
Monday—Pearl or White Topaz.
Tuesday—Ruby or Garnet.
Wednesday—Sapphire or Turquoise.
Thursday—Amethyst.
Friday—Emerald.
Saturday—Diamond.

QUANTITY	STOCK NUMBER	ARTICLES AND DESCRIPTION	PRICE	

Where there is a letter prefixed to a number, BE SURE TO USE IT in ordering, as the letter is part of the number.

Do not overlook the value of this Book as a sample line to show to your customers. It is the authoritative Jewelry Catalogue

No Engraving or Repairing after December 15th for Delivery before Christmas

This Catalogue is for Your Use Throughout the Year

NOT ONLY FOR THE HOLIDAY SEASON

CONCERNING ORDERS

Using our order blanks will facilitate the filling of your orders.

Where there is a letter prefixed to a number, be sure to use it in ordering, as the letter is part of the number.

We are prepared to handle your special order business, shipping directly to your customers, if you so desire.

SUBSTITUTION: Where articles ordered are out of stock, we will fill the order with others of equal or better value, unless otherwise directed by you.

Where articles ordered engraved are not in stock, we will substitute but will NOT engrave, unless your order is marked "SUBSTITUTE IF OUT AND ENGRAVE."

APPROVAL: No goods, excepting Diamonds, will be sent on approval. Diamonds sent on approval will be considered sold if not returned within ten days. DO NOT ORDER OTHER GOODS ON APPROVAL. It will cause delay, as we must decline all such orders.

DELAYS IN SHIPMENT: All orders will be promptly filled; should delay in shipment occur notify us, but do not send a duplicate order.

During the month of December we will take the liberty of dividing shipments where articles ordered to be engraved or made up to order are liable to delay the entire shipment.

Owing to their value, diamonds and watches will not be included in freight shipments.

ENGRAVING: Order styles of engraving by the numbers given on the engraving chart on page 263 of this book. Write plainly the letters to be engraved, as we will not engrave any article where there is doubt as to the letters or monograms desired.

RETURN GOODS: Articles sent according to order should not be returned. If goods are returned they must be accompanied by a letter of explanation.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

This Catalogue is for Your Use Throughout the Year

NOT ONLY FOR THE HOLIDAY SEASON

Do not overlook the value of this book as a sample line to show to your customers.

This catalogue will be in force until the issue of our next Jewelry catalogue—about Sept. 1, 1915—it is not a one season catalogue.

We urge early stock orders for Holiday business while lines are complete.

During the month of December the congested condition of express companies and post offices often cause delay.

Christmas orders should be sent to us as early as possible.

In sending late orders ample allowance should be made for delays due to conditions above mentioned.

MERCHANDISING

To forecast, sometimes many months ahead, what the public will want.

To obtain that merchandise—either by special manufacture or skillful purchase—so that it can be offered at an attractive price.

To maintain assortments of such character and completeness that the merchant will instinctively know where to seek for the desired commodity.

To set new quality standards even for staple lines by utilizing the great fund of original ideas that develop through the particular demands of our own retail store.

To have the merchandise so satisfactory that each purchase will create a greater degree of confidence.

To have a service so perfected as to mean efficiency in its broadest sense.
